David,

The EPA approves the vegetation control program for the TCRA cap as described.

Subject: San Jacinto River Waste Pits Superfund Site Letters

Gary – As we discussed earlier this week, please see the attached two letters related to the work McGinnes Industrial Maintenance Corporation and International Paper Company are performing at the San Jacinto River Waste Pits Superfund Site. One letter is in regard to the RI/FS schedule and the other outlines a control program for the vegetation that we discussed on the Time Critical Removal Action armored cap.

We are also sending hard copies of these letters to you by overnight delivery. Please don't hesitate to contact me if you have any concerns or would like to discuss either issue.

Regards,
David
